

Project update

Hi Shawn,

We've issued an [Expression of Interest for the proposed North Montney Region Electrification project](#). We're seeking industrial customers that are interested in electrifying their operations, and we want to know how much electricity they need and when, and where they're located.

Understanding the demand for electricity, timing and location will help inform [our plans for the future of our transmission infrastructure in the region](#).

For more information

Learn more about the [North Montney Expression of Interest](#) or [contact the North Montney Expression of Interest Administrator](#).
