**Subject:** New camp in the pink mountain area

**CAUTION:** This email originated from outside of the organization.

Hi I heard that you guys are making a ruling on allowing another camp enter the pink mountain area. As a local to the area and someone that works in the camps I can say that I am absolutely apposed to this. Right now, a few large out of country companies are strangling the local camps. I haven't seen anyone that's already in the area reach a 75% occupancy in nearly ten years, adding another large company will devastate the local business. Thank you for your time.
