Re: New representative point of contact for Enbridge & Alliance Pipeline System

Good afternoon,

Effective April 18, 2021, I will be your point of contact for Enbridge's Community & Indigenous Engagement for the Alliance Pipeline System and the existing Westcoast Energy Inc Pipeline System. This is a continuation of the "owner-operator" model assumed by the Alliance's Joint Venture owners Enbridge and Pembina in 2018 where Enbridge is responsible for the Operations and Engineering functions, and Pembina, Commercial and Financial Services.

The Alliance Pipeline system consists of a 3,848-kilometre (2,391-mile) integrated Canadian and U.S. natural gas gathering and transmission pipeline system. Commencing in NEBC, the pipeline delivers sales quality natural gas from the Western Canadian Sedimentary Basin and the Williston Basin to the Chicago market hub. The Canadian portion of the system consists of approximately 2,292 kilometres (1,424 miles) of infrastructure. Enbridge has a 50 percent ownership interest in Alliance Pipeline.

I have attached maps of both Enbridge systems. Please reach out to me if you have any questions or would like to discuss this transition. I look forward to continuing to work with you all.

Wendy Halladay
Advisor, Community & Indigenous Engagement
