I have read most of the report - didn't see it until now. It is very in-depth- good. I do, however, think the transportation section does not emphasize that most people rely on cars in large measure because, except perhaps in FSJ, we do NOT have an adequate transportation system - even in Dawson Creek. Step Up & Ride is helpful for those with physical difficulties, but can be quite expensive and, like B.C. Transit, has very limited hours. Air travel is also a big issue except for North Peace residents - Tumbler Ridge folks have to drive 165 km to the airport.

The first photo of DC is extremely dated - IGA left their location MANY years ago!

Thanks, Margaret Sutton
