

265 Southgate Street, PO Box 1600, Tumbler Ridge, BC, V0C 2W0

Directors of the PRRD:

The Tumbler Ridge Global Geopark in partnership with the Tumbler Ridge Dinosaur Discovery Gallery, sponsored by Meikle Wind, is looking for outreach opportunities for our mobile interpretive exhibit (known as “The Time Machine”). The Time Machine is an interactive educational exhibit that acts as a museum-on-wheels. This one-of-a-kind experience brings the rich geology, paleontology, and cultural heritage of the Tumbler Ridge and Peace River Region to life, offering hands-on exploration for all ages.

As a non-profit, the Tumbler Ridge Global Geopark Time Machine is entirely free of charge—we do not sell any items from the trailer, nor do we require payment for appearances at events. Our mission is purely educational, though we may provide take-home promotional materials about the Tumbler Ridge Global Geopark and Tumbler Ridge Dinosaur Discovery Gallery.

The exhibit is housed in a 28-foot trailer, requiring about eight parking spaces when fully set up. We are looking to expand to more events and reach a wider audience. Some of the events we have attended include:

Dawson Creek Exhibition and Rodeo

Chetwynd Chainsaw Carving Competition

West Moberly Days

Pemmican Days

Taylor Gold Panning Competition

Tumbler Ridge Fall Fair

Kiskatinaw Fall Fair

We aim to add four more events to our schedule

If you are interested in having the Time Machine visit an event in your area, please contact us at info@tumlerridgegeopark.ca or give us a call at 250-242-3123.

We look forward to the opportunity to bring this unique experience to your community!
