New comment received

File No. / Applicant: 25-002 TUP Prospect Land Services and Environmental as agent for Tourmaline Oil Corp.

Comments or Concerns:

As a nearby landowner there is concern regarding the additional traffic that the Jackfish road will have. This road is all ready heavily used and in poor condition more often than not all ready from the industry traffic. MOTI indicated this road is bonded; however, there has been no additional maintenance in nearly 10 years and it will be seeing significantly more traffic.
